Mast step slot – maximum	

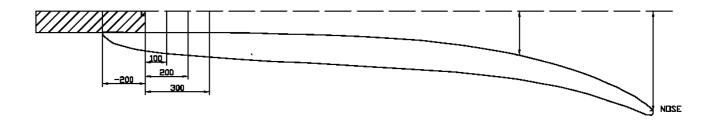

# ISAF APPROVED SERIES PRODUCTION BOARD REGISTRATION - PART Ib continued CONFIDENTIAL

This form shall be completed and returned to:

ISAF Secretariat: ISAF (UK) Ltd, Ariadne House, Town Quay, Southampton, Hampshire, SO14 2AQ, United Kingdom -Email: norbert@isaf.co.uk Fax: +44 23 80635789

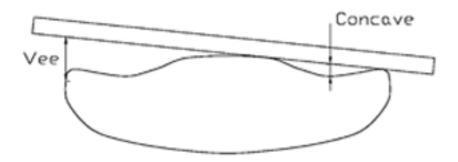

**BOARD DECLARATION** - Builders are to submit detailed dimensions of their board on the **Hull Check Sheet** as follows:

With the board upside down mark off the hull at 100mm intervals, starting 200mm from the tail/ transom as shown in the figure below. Then, set up a spirit level laser pointing down the length of the board, with the beam starting at the 0 station, 200mm from the tail. Then measure at each station vertically to find the rocker measurements. Correct the dimension to allow for the height of your reference beam above the hull at station 0.

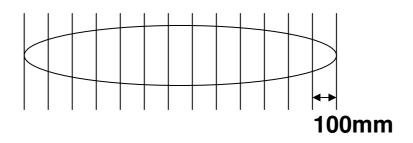

#### **Vee and Concave**

The vee and concave measurements are taken using a straight edge laid across the hull.

#### **Width Measurements**

The maximum width is taken at the start. Take the witdh measurements at 100 mm intervals along the whole board length as shown below. Take the 200, 800, 1100 station widths as a final check.
