Approved

5. President's report

30 countries representing 5 continents were members of IFCA in 2010.

There are still some problems with the prize money from the WC Slalom in BRA. The Government (Tourism Ministry) has still to pay the organizer, so that IWA can pay the riders. So far we have received confirmation that the government will pay in a few weeks the organizer. We are confident that the money will come soon.

The 2011 junior, youth and master Slalom WC, in Curacao, had some problems with the venue and a lack of wind.

Slalom is still growing in popularity.

7. Championship Rules

Freestyle/wave overall ranking

The general idea is to test the following during the next year: calculate only double eliminations once a double elimination is finalized, therefore:

- If only a single elimination is finished it will count.
- If a double elimination is finished it will count.
- If a double and a single elimination are finished only the double will count.
- If 2 double elimination are finished both will count.

Validity of Titles

The proposal is accepted by the AGM. "Titles shall only be awarded if one elimination is completed up to and including the final".

Master and Grandmaster age groups

The proposal is **not** accepted. The age for Master and Grandmaster will stay the same as in the other windsurfing classes.
