RE: Class Rule Changes for 2021 Junior & Youth World Championships IFCA 2021

In accordance with RRS 87, the Funboard Youth Racing Class permits the following Class Rule Change through the Notice of Race.

Amend class rule A.9 to read:

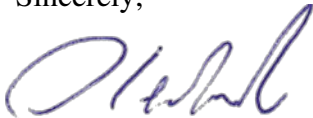

A.9 LICENSED MANUFACTURERS

- A.9.1 No board shall compete in FYRC events unless it is a series production board registered with the WS, and included on the relevant Funboard Production Board list.
- A.9.2 To be eligible for the FYRC World Championships a board shall have been registered with the WS, and included on the relevant Funboard Production Board list, not less than 60 days prior to the start of the event, and not less than 30 days for Continental Championships. **With the following exemption:**
For the 2021 FYRC World Championship only, new models of boards already registered, where the only change is a change to the graphics and not to the building specification, may be used.
-

Reasons:

For this event only, to minimize the disruption in availability of equipment caused by the COVID-19 pandemic.

Sincerely,

Piotr Oleksiak
FYRC Class Secretary
